

Type: SPP Series

Applications

- Use on any single phase air conditioner or refrigeration unit
- Low voltage situations
- Hard starting compressors

Features/Benefits

- Positive Temperature Coefficient Technology (PTC)
- Field proven reliability
- Easy 2 - wire installation
- Most economic

Specifications: Rated Voltage: 90-277VAC

Max Current: 22A

Temperature Range:-20~65°C

INCREASE IN TORQUE (%) : 200%-600%

Model	OPERATING VOLTAGE (VAC)	RECOMMENDED RANGE(hp)	INCREASE IN TOUQUE (%)
SPP5	90-277	1/2 to 10	300
SPP6	90-277	1/2 to 10	500
SPP8	90-277	1/2 to 10	600
